

Century Glass offers customers a Lifetime No-Leak Warranty on all windshield replacements installed by our AGSC Certified (Auto Glass Safety Council) Auto Glass Technicians. In addition to our commitment to safety, our customer's satisfaction is very important to us.

**Replacement Warranty:** Should a customer notice defects in the glass (such as stress cracks), installation errors due to workmanship, water leaks around the glass or the sound of wind noise, Century Glass will replace the windshield at no cost to the customer or to the policyholder's Insurance Company, if the windshield was originally paid by their Insurance Company. This warranty does not cover pre-existing rust, structural damage to the vehicle, impact of foreign objects or vandalism.

**Chip Repair(s) Warranty:** A determination will be made by our AGSC Certified Auto Glass Technicians of whether a chip repair is possible or if the damage to the glass is too great. In this case, a replacement windshield will be recommended. Should Century Glass attempt a chip repair and during that process or once a repair has been successfully completed, and the damage spreads beyond what can be repaired, Century Glass will deduct the cost of the repair from the price of a new replacement windshield, provided that the cost has already been paid by the customer. If the cost of the repair was paid by the policyholder's Insurance Company, the cost of the repair will be deducted from the invoice when billed to the Insurance Company for the new replacement windshield.

Our Lifetime No Leak Warranty is valid, for the life of your vehicle. This warranty is non-transferable to a new owner and customers will be asked to provide a copy of their paid receipt, showing where Century Glass performed the windshield repair or replacement service.
